- Sherry Ryan, PhD

Project Manager: Jessica Haughton, MPH, MA Doctoral Students: Lilian Perez, MPH, Sandra Soto, MPH

Overview

- Conceptual approach to promoting physical activity—Focus on Latina women
- Intervening with Mexican-American women
 - Fe en Accion/Faith with Action
- Implementation challenges and solutions
 - Promotora
 - Faith based
 - Participants

CONCEPTUAL APPROACH

Communities

(e.g., access to parks, grocery stores)

Interpersonal

(Families, Neighbors, Friends)

Intrapersonal

(e.g., Physical activity, diet)

Acculturation and socio-economic status

Faith in Action Fe en Acción

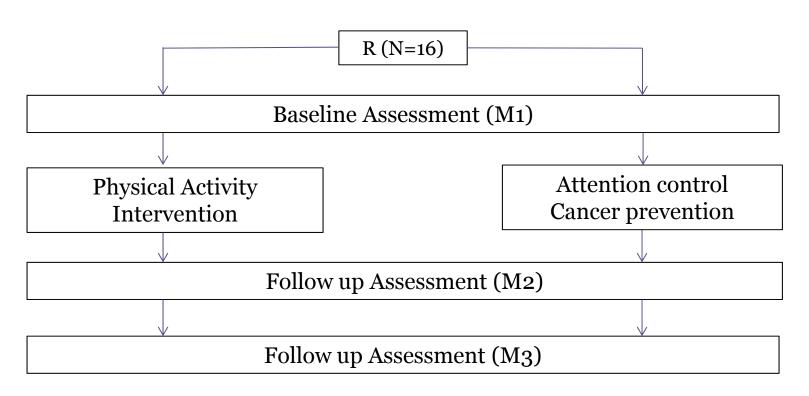

NCI: 1R01CA138894-01

Faith in Action

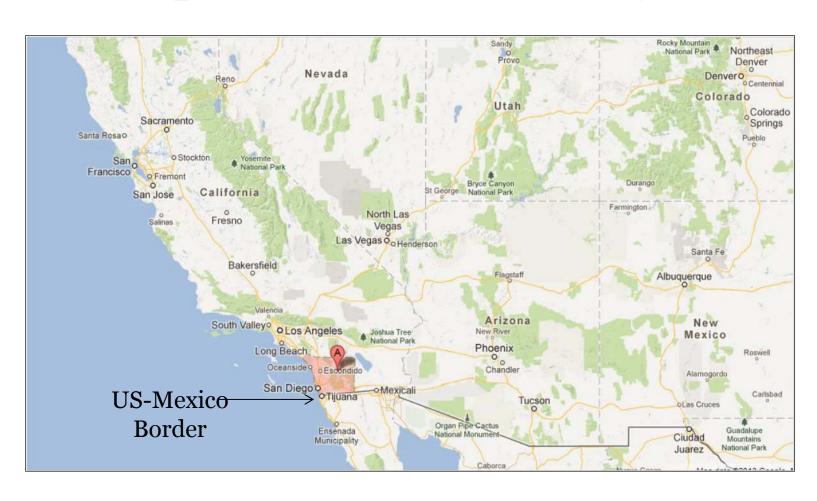

- Faith in Action (Fe en Acción) is a randomized controlled community trial designed to increase physical activity (and healthy eating) among adult Latinas.
- Church members (promotoras) are trained to provide education and support to fellow parishioners to improve the health of their community.
- Two year intervention (6 year study)

Design of intervention trial

Recruitment of churches (N=16), participants (N=432), and promotoras

Map of intervention region

W7

Target audience

- Latinas ages 18-65
- Being inactive
- Committing to living in the region for 2 years
- Attending the church at least once a week
- Passing the Physical Activity Readiness Questionnaire (PAR-Q)

Promotoras (community lay health worker)

- Lay health advisors recruited from the faith community
- Recruitment process
- Selection- two types of promotoras

Promotora training- physical activity

- Six weeks of training to become group fitness instructors
- Topics include:
 - 1) Warm up and class instruction
 - 2) Cool down and injury prevention
 - 3) Developing walking groups
 - 4) Strategies for healthy eating
 - 5) Cardio dance
 - 6) Strength training
 - 7) Healthy weight
 - 8) Motivational interviewing
- Supported and supervised by a physical activity specialist

physical activity

• Intervention:

Each promotora teaches 6 classes a week (2 walking groups and 4 group fitness classes)

Health education sheets provided during the PA classes

Promotora interventions

| Challenge | Solution |
|--|---|
| Finding <i>promotoras</i> in the community to implement PA program | Provide intensive training and support; weekly/monthly meetings |
| Not having job skills | Provide training on job skills (e.g., time management, speaking in front of group); have staff follow up with <i>promotoras</i> |
| Collecting process evaluation data | Pay <i>promotoras</i> (vs. volunteer); strong relationship with staff |

Ayala, Vaz, Earp, et al., (2010) Cherrington, Ayala, Elder, Arredondo, et al., (2010)

Faith-based organizations

| Challenge | Solution |
|--|---|
| Not wanting to be assigned to a specific study condition | Emphasize the advantages of each condition |
| Church leaders having limited time | Plan in advance |
| Availability of rooms and other resources differs by church size | PA in local parks, recreation centers, libraries |
| Social cohesion | Implement activities that facilitate social cohesion (e.g., raffles, buddy program, etc.) |

Participants

| Challenge | Solution |
|--|--|
| Attending other churches | Screen and assess |
| Crossing the border frequently | Screen and assess |
| Involving inactive women | Offer raffles, high quality classes, offer low impact classes/walking groups, group approach, MI calls |
| Attending PA classes throughout the year | Change meeting times during day light savings time |

Thank you! iGracias!
